SUPERFECTION

IT'S NEW—IT'S BEAUTIFUL—IT'S GOOD EATING. PLANT SOME IN SPRING, PICK BERRIES FROM LATE SUMMER UNTIL SNOW FLIES.

New Superfection Everbearing

The Heaviest Producing Everbearer

This new variety was introduced in Michigan a few years ago and we obtained plants and made a test planting. We are glad to say that our results were very good with this new everbearer. This variety was discovered by the same party that originated Gem Everbearing. This Great New Everbearing Strawberry should be given a generous space in your berry garden. It gives the most fruit for your money—big, firm, juicy berries of rich flavor, and bright red throughout. They are grand for eating fresh, for preserves, and are exceptionally fine for freezing. Strong, dependable grower, a good plant maker, and hardy in all sections. In the trial gardens of the Iowa State College, Superfection produced at the amazing rate of 11,815 quarts per acre. Self-pollenizing. **NOTE—See page 6 for Prices.**

NEW BLACK HAWK

OUTSTANDING HYBRID RASPBERRY

NEW HYBRID BLACK RASPBERRY ORIGINATED AT IOWA STATE COLLEGE. Until the introduction of Black Hawk, disease was the limiting factor. Now you can have big juicy berries of highest quality on disease free canes. We think Black Hawk the outstanding black raspberry in America today.

**SUPPLY LIMITED—1 year tip plants—5 for \$2.00;
10 for \$3.50, 25 for \$5.50.**

HERE ARE THE VIRUS-FREE "BIG THREE"

**NOTICE—See page 6 for prices
Robinson, Dunlap, Premier.**

The well known Dunlap is one of our oldest varieties, sometimes known as Dr. Burrill. It is, we believe, the most widely planted variety in existence. Almost everyone who has had a strawberry patch knows the Dunlap. If you have never grown strawberries we think Dunlap is the variety to start with for it is extremely vigorous, free from disease, and will make more plants than any other variety grown in the middlewest. While the fruit of the Dunlap will not stand up long enough for shipping long distances, it is very hard to beat for local marketing and table use.

Midseason—

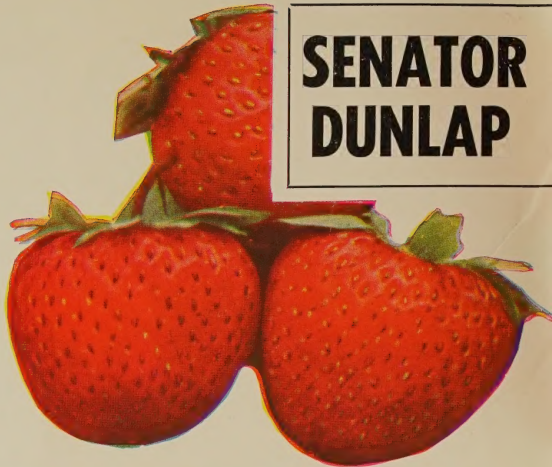

Does well in all areas except deep south.

VIRUS-FREE STOCK

ALL VARIETIES ON THIS PAGE FROM VIRUS-FREE STOCK AT NO EXTRA COST!

SENATOR DUNLAP

PREMIER

Early—Especially good for entire United States except deep south and west of Rocky Mountains.

Premier is the very best of the older varieties. It is one of if not the earliest berry we have and at the same time will resist frost more than other varieties which bloom at the same time. The picking is best before other commercial varieties come into bearing, thus gaining for the grower the higher prices that early fruit commands. The foliage is tough and healthy, covering and protecting the blooms and shielding them from frost. Premier will not make quite as many plants as the Beaver, Blakemore, or Dunlap, but it produces large and husky plants which can support a lot of large berries. The fruit ships well and is very firm. It is pointed, bright showy red, and has a nice calyx.

GIANT ROBINSON

**NOW
Robinson
IS OUR
LARGEST
SELLING
STRAW-
BERRY
VARIETY**

**"It's
Tops"**

THE WORLD'S GREATEST STRAWBERRY

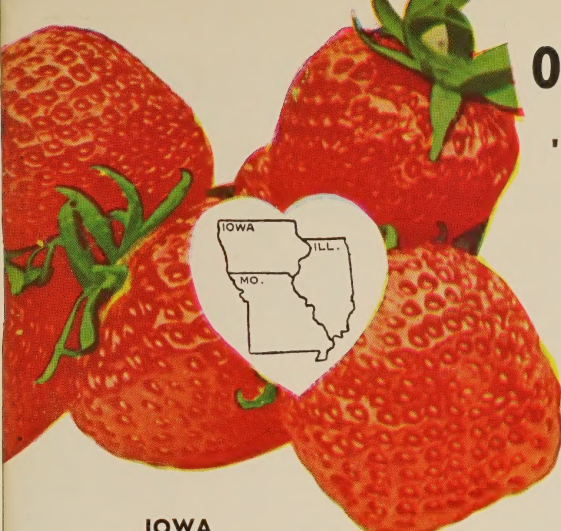

The size of Giant Robinson is practically indescribable. The plant is peculiar, inasmuch as it only sends out one fruit stem but this fruit stem will have from two to three huge berries on it. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring.

THRIVES IN POOR SOIL

Due to its plant making ability, the Giant Robinson will thrive and produce a crop of berries on rather poor soil. Robinson is a perfect flowering variety which requires no pollinizing.

LATE FRUITING SEASON

Giant Robinson commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market when in most sections there are no strawberries to be had

OUTSTANDING VARIETIES FROM "THE HEART OF THE MIDWEST"

IOWA BEAUTY

Features

1. Vigorous drought resistant plant maker.
2. Large thrifty plants able to withstand severe mid-west winters.
3. Has outyielded several leading commercial varieties.
4. Big berries of highest quality, excellent keeper and freezing variety.

IOWA

We are proud to add "IOWA BEAUTY" to our strawberry family. Like many other famous varieties such as the Gem Everbearing "IOWA BEAUTY" was discovered growing in an old strawberry plantation. Its healthy appearance and quality fruit led to its testing and propagation. After observing the results as to heavy yield, unbelievable keeping quality and healthy growth, we have arranged to bring this variety to you, our customers. We are the only authorized grower and distributor of "IOWA BEAUTY". The supply is limited this year so Order Early.

VERMILLION

- ★ Heavy Yields ★ Disease Free
- ★ Big Husky Plants
- ★ Luscious Vermillion Red Fruit
- ★ We predict Vermillion will soon be in the top rating varieties.

ILLINOIS

Vermillion has undergone continuous and extensive testing at the University of Illinois and Experimental Stations throughout the United States. It is at the top of the list in quality and attractiveness. Berries are medium large and a glossy bright red. Resistant to red stele and leaf spotting diseases.

NOTICE—See page 6 for prices Iowa Beauty, Armore, Vermillion

NEW ARMORE VARIETY

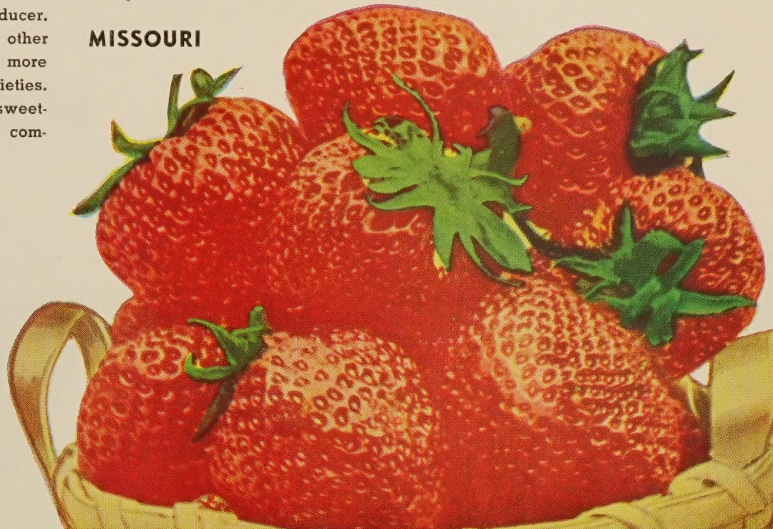

QUALITY FLAVOR and MARKET VALUE

Excellent for south central states, also Missouri, Illinois and Indiana

The Armore is a cross between the Blakemore and the Aroma strawberries and was developed by Professor Swartout of the University of Missouri Department of Agriculture. In yield it exceeds both Aroma and Blakemore. The fruit is large, well-shaped and holds its size until the end of the season and does not have a core like its parent Aroma. It ripens 10 days after Blakemore. The Armore is a fair to good plant maker making husky good size plants which do not seem to be affected with leaf spot or other leaf diseases. Reports from the growers who have fruited Armore are very enthusiastic. We believe this berry is going to be a money maker.

Big is the word for Armore. BIG producer. BIG berries. BIG harvests when the other June bearers are through. It proved more productive than over 200 other varieties. Hard to beat for flavor and sugar sweetness. Already a big favorite with commercial growers.

GIANT THORNLESS BOYSENBERRY

HARDY QUICK GROWER, HEAVY YIELDER, HIGH QUALITY FRUIT, EXCELLENT FLAVOR—By far the largest and heaviest producing berry of the blackberry or dewberry family. For certain success and greater profits be sure to include Boysenberry in your plantings. It is an established fact that Boysenberry brings much higher prices than other bush fruits. Plant a row of Boysenberry and it will be the pride of your garden.

PRICES ON THORNLESS BOYSENBERRY—1 Year
No. 1 Plants—5 for 75c; 10 for \$1.00; 25 for \$2.25;
100 for \$8.50; 1,000 for \$60.00.

GIANT "PIXWELL" GOOSEBERRY

NEW PIXWELL GOOSEBERRY—A grand new variety that is going to be very popular. Bred in the north for extreme hardiness. Berries much larger than usual sorts. Berries are very easy to pick hence the name Pixwell. Thorns on Pixwell lose their sharpness on bearing wood and berries are held to the outside of the bush. Pixwell is the best Gooseberry developed in many years.

2-year No. 1 Plants, New Pixwell Gooseberries
70c each; 5 for \$3.00; 10 for \$5.00.

GOLDEN MUSCAT GRAPE

Hardy California Type Grape. Ideal for home use, compact bunches are large, heavy and broad shouldered, very productive.

Price on 2-year Vines: \$1.00 each; 3 for \$2.75.

"Ebony King"

New

*It's
Fertile*

GUARANTEED TO BEAR BLACKBERRY

Ebony King is a new Blackberry, exceptionally large. They are very sweet and have the wonderful sweet Blackberry flavor. Ebony King ripens about ten days earlier than Eldorado. The bushes are upright with very strong canes, being able to hold up a heavy crop without breaking down. Best of all it is completely fertile, it bears fruit, large clusters of it on every bush. Ebony King has ability to adapt itself to poor soil, and most drought conditions.

**Price: No. 1 Plants—12 for \$3.50;
25 for \$6.75; 50 for \$12.75.**

NEW JONADEL APPLE

Iowa State College Introduction

Fruit similar to Jonathan, but larger. Skin smooth and firm. Crisp and juicy. Store well until late March. Does not get mealy. Blight resistant.

**2-year 9/16 grade trees, 4 to 5 feet high, \$2.25 each;
5 for \$10.00.**

Strawberries

GIANT GEM

"OUR FAVORITE EVERBEARER"

Ever since we have been growing this variety we have noted that year after year, through varying conditions and seasons, Gem has always given us a yield of fruit that exceeded in most cases all other types of Everbearers we have tested. We have discontinued several well known varieties as we feel our customers will be more satisfied with the Gem. We have noticed that the Gem is listed by more Nurseries than any other Everbearing variety. This is from all sections of the country, and should indicate that Gem is very dependable and safe to plant.

The Gem berries are medium to large, very smooth and uniform. The color and shape of this variety makes a very attractive box of fruit. The fruit has a slightly tart flavor which makes it a favorite of many people who like tart flavor in strawberries. The quality is good and will stand up well in shipment. Gem makes a vigorous growth and will make runners freely. The foliage is dark and is free from leaf troubles.

STREAMLINER The Sensational New Everbearer

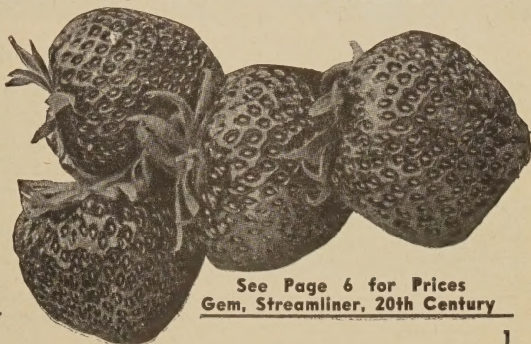

An outstanding variety that is sweeping the country. Many growers after fruiting this variety for the first time are very enthusiastic, saying that Streamliner has everything needed to place it in first place among the everbearing family. Streamliner is a vigorous plant maker. The foliage is apparently resistant to leaf spot and scorch. The leaves of Streamliner have a very attractive waxy appearance. It

has been very productive, and the bright red berries are of large size and excellent quality. Streamliner is not as acid as the Gem and does not require as much sugar to prepare. A lot of people cannot eat acid or tart strawberries and the Streamliner would be better for those of you who do not wish an acid berry. It has

been our experience that no one variety of Everbearers will consistently outperform all others. Some years one sort does much better than others and perhaps the next year it will be the other way around. We do believe that the varieties we are offering, Streamliner, Gem, 20th Century and the New Superfection, represent the top four varieties and with any one of them you should have very good returns from your investment in the plants. Our supply of Streamliner is better than last season but we do expect to be sold out on this variety early and hope that we may receive your orders for Streamliner early in the season.

20TH CENTURY

This variety is outstanding in many ways, mammoth size, rich red color, honey sweet, adaptable to all soils and climates. Bears in 60 days, excellent shipper and always in demand. 20th Century is the result of carefully planned crossing of Wazata and Supreme. It has the quality of Rockhill but is many times more productive. The berries have a wholesome honey sweet flavor. A perfect canning berry, and excellent for freezing. 20th Century plants are large and husky and can stand drouth and cold winters.

See Page 6 for Prices
Gem, Streamliner, 20th Century

RED RICH T W O BRILLIANT

OUTSTANDING PATENTED EVERBEARING STRAWBERRIES RED RICH

(Plant Pat. No. 993) The Greatest Development in Strawberry Varieties in the past 50 years

RED RICH Everbearer, we believe, will soon become the leading everbearing strawberry variety in the United States. It has all of the superior qualities which we have been looking for in any strawberry, as well as being an everbearer.

The RED RICH is distinguished from all other strawberries by its deep red color which runs entirely through the berry. This redness indicates unusually great conversion to sugar. The permanent firmness of the berry texture adds to its freezing potential. The berries maintain their actual shape after thawing. Deep Red Color, High Sugar Content, Firm Texture. These qualities make RED RICH a top notch berry for freezing, preserves, and processing. The berry itself is firm; stands up well and ships well.

Heavy yielding along with the rich glossy appearance of the berries gives it top rating from the grower's standpoint.

Make a trial planting of RED RICH this year and be convinced of its superior qualities.

Postpaid Prices:	12	25	50	100	250

BRILLIANT

The New Super-Bearer. (Patent No. 1183.) 7,000 Quarts from One Acre the First Year. Yields of one to two quarts per plant are common with Brilliant. Starts producing 6 weeks after planting when planted in the spring. Bears on new runners. 100% perfect pollinizer; matures every berry to full size and uniform shape and even color. They do well on sandy soil, heavy clay or raw muck. Berries are large, brilliant glistening-red, with rich tangy flavor; very firm textured and can easily be shipped within radius of 100 miles and arrive in excellent condition. Increases rapidly; 200 plants can be increased until you have a full acre; then, you can make more profit from one acre of Brilliant than you will from 20 acres of ordinary crops. Prepaid.

Prices: 12 for \$1.75; 25 for \$3.25; 50 for \$5.75; 100 for \$9.95; 250 for \$23.50; 500 for \$42.85; 1,000 for \$75.00.

Our 32nd Year

To Our Friends and Customers

We are glad to send you our 1958 Catalog. This is the largest and most complete listing of Hardy Iowa Grown Stock that we have ever listed. You will find all the worthwhile varieties listed, the ones that will make your plantings a success and show you a profit.

Prices on most everything have been going higher every month and week. It seems to us that few dollars invested in fruits that you can raise and pick yourself will help in holding down the high cost of living.

We wish to call your attention to our strawberry listings as we are the largest growers of strawberries in Iowa, growing and digging fresh plants for each order. We have several million fine plants again this season with which to fill your orders. All plants are machine dug to get all the roots. They are packed in moss or polyethylene wrap so that they will reach you safely. **OUR STOCK IS STATE INSPECTED AND FOUND FREE FROM DISEASE.**

STRAWBERRIES AND RASPBERRIES DOUBLY INSPECTED. A COPY OF THIS CERTIFICATE ACCOMPANIES EACH ORDER.

We hope that we may have the privilege of serving you this season.

A WORD ABOUT VIRUS FREE STRAWBERRY PLANTS

There has been quite a bit of confusion about the status of virus free strawberry plants. A virus disease is very hard to detect and it takes complicated tests to determine whether the plants have or have not been attacked. It is known that the virus is spread by the strawberry aphid. To get virus free stocks, the mother plants are raised in a lath house under a special program. These mother plants are used to produce the planting stock from which we grow our stock. At the present time the following varieties are available: Dunlap, Blakemore, Robinson, Premier, Bellmar, Vermillion, and Tennessee Beauty. All plants shipped the 1958 season of these varieties will be virus free at no extra cost. Virus free stock will produce more runners and are more vigorous sometimes than the other stocks but do not be afraid of the varieties not marked virus free as the experiment stations have been working on the varieties most frequently attacked by the virus. Here in our fields we can see no difference in growth between the virus free and the standard sorts. As the other varieties become available in virus free we will add them to our list. We expect to have some of the Everbearing varieties in virus free next year.

OUR GUARANTEE

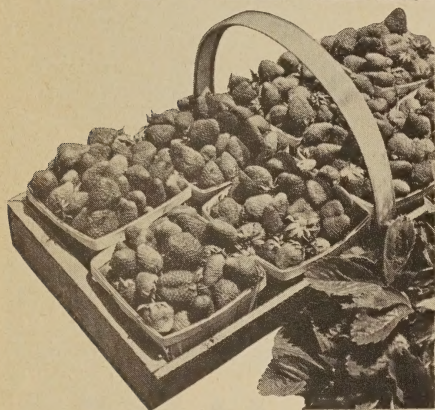

We guarantee that all stock sold by the Rider Nurseries, Farmington, Iowa, is state inspected stock, true to name and free from disease. We guarantee that all strawberry plants are one year plants. We guarantee that all stock will arrive in good growing condition. All claims for any cause must be mailed within 10 days after receiving stock. We will in no case be held responsible for more than the original amount of the order.

Strawberries

JUNE BEARING

**Newer
Varieties**

**VIGOROUS
GROWER**

POCAHONTAS

Pocahontas was released by the U.S.D.A. in October of 1953. It is a cross between Tennessee Shipper and Midland. From both parents it gets its unusual firmness. Tennessee Shipper parent contributes a light attractive color. From Midland, Pocahontas inherits great productiveness. Pocahontas is very vigorous and healthy in growth. Pocahontas is slightly tart like Blakemore making it an ideal freezing and preserving berry.

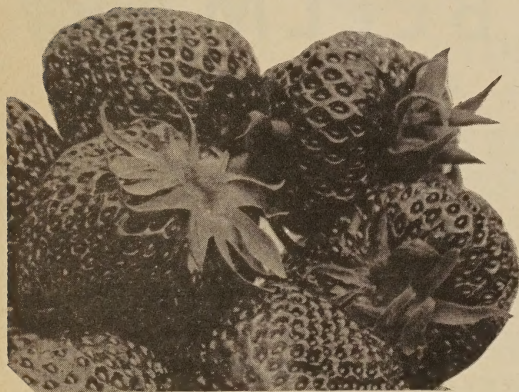

Dr. M. M. Parker of Virginia Truck Experiment Station has worked with Pocahontas several years, and as a result of his tests Pocahontas was introduced. Dr. Parker and his associates are quite enthusiastic about setting Pocahontas thick in the row in the fall and picking bumper crops of berries the next spring.

EMPIRE

**FROST-RESISTANT AND A
HIT FOR NORTHERN STATES**

A Great Shipping Berry

Empire is considered by us and many other expert strawberry growers to be a better variety than Premier, and is especially adapted to the Premier territory. Empire quality is much better than Premier. Empire berries have a more attractive appearance than Premier as the berries are firmer with a tougher skin making them hold up and ship farther, which means a higher market price, on the market where quality and appearance are important. Another good point of Empire is its freezing quality. From Illinois to Pennsylvania and north to New York the growers have been uniformly enthusiastic. We recommend that everyone in the Premier territory should try Empire. This variety is firmly established in the strawberry family, backed by recorded record yields and developed and proven by the New York Experimental station at Geneva, New York.

PAYMASTER

A Great New Strawberry Red Stele Resistant

A B. W. Keith origination, and we give you his description of it.

"Paymaster was chosen from 3000 strawberry seedlings. Paymaster is a cross of the Gem Everbearing and the Premier made years ago. It was so outstanding that we selected it from others and grew it in a fruiting row and found it just the strawberry we were after. Paymaster is a midseason variety and is a sparkling red beauty of a strawberry."

Makes Good at Experimental Stations

The experimental station at Urbana, Illinois wrote as follows: "Of about 200 strawberry varieties which we tested here in 1951 and 1952 Paymaster proved to be one of the best for freezing and also one of the highest yielders. The fruit was large, firm, sweet, and high in flavor." The plant is absolutely resistant to Red Stele. Originating in Michigan it is absolutely hardy and we know that you will like it very much indeed. Supply is limited so order early.

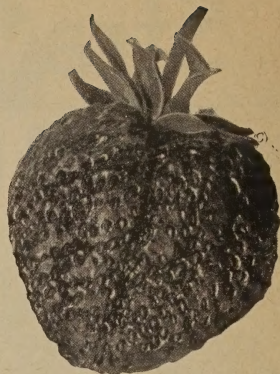

NOTICE—Turn to page 6 for Strawberry Plant Prices

Additional High Yielding June Bearing Strawberries

REDGLOW

This early variety, formerly known as selection No. 4194, appears to be especially good for freezing and fresh market sale. It produces large, vivid red berries that have a wonderful red flesh color and are really beautiful in all respects. The flavor is fine and the berries are fairly firm. Fruit of Redglow is especially attractive and will be a sure bet for fresh market use. In addition, Redglow is resistant to red stele. Tests of this variety indicate that it is adapted to the middle Atlantic area and westward to Kentucky. Plants of Redglow are vigorous and make lots of runners.

WISCONSIN 214 A new variety from University of Wisconsin. Many commercial growers now favor this variety.

Another introduction for the north developed at University of Wisconsin. Medium to large fruit, vigorous plant maker and very hardy. Fruit excellent for canning or freezing. Will produce satisfactory crops in the northern states where other varieties freeze out.

BELLMAR

A FAVORITE COMMERCIAL BERRY IN MANY STATES

This is another of the newer varieties. One of the surest indications of popularity is the increasing demand each year for plants of Bellmar. Bellmar in growth resembles the Premier with the exception that it will make more plants than the Premier. The extra large berries are very attractive, have a dark red color that extends clear through to the center of the berry. The fruit stands up well in shipping. We think Bellmar is better than Premier for Missouri, southern Illinois, Kentucky and other localities to the south of us.

SEE PAGE 6 FOR BELLMAR PRICES

Two Important Products for the Success of Your Strawberry Patch Are "Mr. Big" and Orthocide Listed Below

"Mr. Big" Strawberry Food

Strawberries do not seem to respond to Mineral fertilizers but we have been getting remarkable results with this all organic strawberry food. ANALYSIS 3-13-7.

"A must for your Strawberry Garden."

5 pound Bag only \$1.10.
Enough for 200 Plants.

TENNESSEE BEAUTY

Very Productive, Good Processor

Since its experiment station introduction a few years ago Tennessee Beauty has earned a high ranking place for itself among commercial strawberry growers. The recommended territory of Tennessee Beauty is about the same as Blakemore. It covers all southern states up to southern New York and westward to Missouri, where it has many friends. Our stock is from Virus free mother strain and the plants are very vigorous enabling this variety to make a good fruiting row.

The berries are among the most beautiful of all varieties averaging medium to large in size and of bright and glossy red color that does not dull for several days and the fruit is firm, excellent for shipping to fresh markets or for freezing and processing making it one of the best for all purposes.

New Miracle Orthocide Fungicide

This new fungicide, containing 50% Captan, protects berries from mold, rot and rainy weather. Captan is your insurance policy for a fine crop of strawberries, fruits and flowers. Non-toxic to humans.

8 oz. can makes 25 gal. spray,
\$1.25; 16 oz. can makes 50 gal. spray, \$1.98.

Here Are Three Recommended Early Maturing

JUNE BEARING STRAWBERRIES

BLAKEMORE

In the years since its introduction by the United States Department of Agriculture, the Blakemore has made a steady gain in acreage planted. It is a cross between the Missionary and Premier varieties. Blakemore is a very good keeping berry which makes it a shipping favorite. It has easy hulling qualities, uniform shape, firm and solid flesh, light bright red color, and a high pectin content.

FAIRLAND

Fairland (USDA 3205) just recently released for introduction by U. S. Department of Agriculture, is outstanding in so many fine respects, its paramount feature being **disease resistance**. Healthy, vigorous grower. Heavy dark green foliage protects the flowers borne on short stalks making it **frost resistant, too**. Equals Premier in productiveness. Medium large, bright red berries have a glossy finish. Ripen uniformly—a few days earlier than premier, and are somewhat firmer. Flavor slightly tart. One of the finest for fresh freezing.

RIDER'S

'PYRAMID'* circular terraced garden

This is the large, four terraced "PYRAMID", 6 feet in diameter. Each aluminum band is 5 inches wide. Recommended for 50 ever-bearing strawberry plants.

NET	6.95
SPRINKLER (Complete)	5.25

HARDY IOWA GROWN

P L A N T S

BEAVER (Early)

Beaver is a cross between Dunlap and Premier and has retained the best qualities of both. Beaver has a dark green foliage and is a very strong grower with a large fibrous root system making it very drouth resistant. Berries are a deep glossy red with the color extending clear through to the center of the fruit. Beaver is a good plant maker and in growth resembles the Dunlap more than it does the Premier. In a State Experiment Farm near here Beaver outyielded all other varieties. We think Beaver has established itself as one of the very best varieties we have at the present time.

COME AND VISIT US

If you live within driving distance of Farmington, we invite you to drive over and pick up your stock. We operate a retail store where you may purchase, in addition to Nursery Stock, the following items: Flower and Vegetable Plants, Field and Garden Seeds, Insecticides, Fertilizers and other items. We are located on Iowa Paved Highway No. 2.

See Page 6 for Prices on Blakemore, Fairland, Beaver

NOTICE—All nursery stock for best results, excepting cannas, dahlias, gladiolus, should be set as early as possible. Our shipping season starts February 20 and we urge you to get your orders in as early as possible, telling us when to ship.

Canada Red Rhubarb

- ★ It's TOPS
- ★ It's red clear through
- ★ It's crisp and juicy
- ★ It's mildly acid
- ★ Requires less sugar

The Famous Chipman Strain. A brand new Rhubarb imported from Canada. Stems dark red clear to the heart, and up in the leaf. Sauce made from our Canada Red will be as red as Strawberry jam. Skin so tender it can be cooked with the stem. We offer divisions as it cannot be grown from seed.

Price of Canadian Chipman Red Divisions—60c each; 2 for \$1.00; 6 for \$2.75; 12 for \$5.00.

NOTICE—At various times we have surplus plants on hand, due to over digging, over estimates, cancellations. If you are not particular as to variety you can save money by buying these surplus plants. All will be first quality and from above list. Each bunch will be labeled but variety selections will be up to us.

NOTICE—Please turn to order blank in back of catalog for postal charge information.

Rhubarb

MYATTS LINNEAUS—One of the most popular varieties. It is a type that everyone can grow with success as it is not so particular as to treatment and soil variations. Linneaus is early, tender, and fast growing with a mild sub-acid flavor. This variety is not tough and stringy like some kinds. We recommend Linneaus to everyone.

MYATTS LINNEAUS PRICES

Large roots, 5/8 to 1 inch diameter—5 for 75c; 10 for \$1.00; 20 for \$1.75.

Medium roots—8 or 60c; 24 for \$1.00; 48 for \$1.75.

Horseradish

Everyone should have a corner of their garden planted in horseradish. Does well in any location. We offer crown cuttings which are quicker in growth, or root cuttings at a savings in price. We offer the Giant Bohemian variety.

HORSERADISH PRICES

CROWNS—5 for 50c; 20 for \$1.50; 100 for \$6.50.

ROOT CUTTINGS—12 for 60c; 25 for \$1.00; 100 for \$3.00.

Asparagus

MARY WASHINGTON ASPARAGUS—This high quality strain is a favorite with everyone. It is one of the best for your garden. Has long tender tips that do not branch out until a foot or more in height.

ASPARAGUS PRICES

Strong 1 year plants: 20 for 60c; 40 for \$1.00; 100 for \$2.00; 500 for \$9.00.

Two Year Plants—Double above prices.

Sage

SAGE—A favorite perennial. A few bushes will keep you in fresh, pungent sage leaves for seasoning dressings, sausage, etc.

PRICES—35c each; 5 for \$1.50; 25 for \$6.00.

GOOSEBERRIES — CURRANTS

GIANT PIXWELL GOOSEBERRY. Please turn to No. 3 color page to see and read about this outstanding new Gooseberry. IT IS GRAND.

HOUGHTON GOOSEBERRY—Best Red Gooseberry. Bears big crops of juicy berries of extra quality. Strong, vigorous, hardy, commercial variety.

DOWNING GOOSEBERRY—Largest green gooseberry. Vigorous grower. Very hardy. Heavy bearer.

RED LAKE CURRANT—The best Red Currant in all climates. The bushes are absolutely hardy. Highly productive. The extra large red berries are borne on big, well-filled clusters. Excellent flavor. Midseason but holds on late. Best of all currants.

PERFECTION CURRANT—Largest of the Reds. Long stems, beautiful bright red berries. Favorite commercial variety.

PRICES

2-year No. 1 Plants, New Pixwell Gooseberries—70c each; 5 for \$3.00; 10 for \$5.00.
2-year No. 1 Plants, Houghton, Downing Gooseberries—60c each; 5 for \$2.75; 10 for \$4.75.
2-year No. 1 Plants, Perfection, Red Lake—50c each; 5 for \$2.25; 10 for \$4.00.

NOTICE—Due to Federal Quarantine we cannot ship Gooseberries or Currants into the following states: Maine, Rhode Island, Vermont, Massachusetts, Connecticut, New Hampshire, Michigan, Idaho, New York or Arkansas.

SMALL FRUITS

HARDY BLACKBERRIES

ELDORADO—Best late blackberry. Satisfies both home and commercial grower. Bears young. Produces almost a full crop the first year after planting. Sparkling jet black color. Berries are large and sweet, uniform in size and practically coreless.

ALFRED—This nearly seedless and coreless blackberry originated in Michigan. The color is glossy jet black, the flavor sweet and delicious. A hardy plant that produces mammoth berries often 1¾ inches long. It does equally well in cold sections.

EARLY HARVEST—One of the earliest blackberries in cultivation. A compact, dwarf grower; fruit of good quality. Heavy bearer.

DEWBERRIES

LUCRETIA DEWBERRY—Early black, extra large berry. A very fine berry for the market.

Alfred Blackberries

BLACKBERRY—DEWBERRY PRICES

RASPBERRIES

"NEW SEPTEMBER"

SENSATIONAL NEW EVERBEARING RED

A New Autumn-Fruiting Red Raspberry, or so-called Everbearing Raspberry, introduced by the New York State Fruit Testing Association. It is the result of crossing Marcy with Ranere.

Berries are of good size and high quality, round, and bright red in color, and show no tendency to crumble. Fruit clings more securely to the bushes. It ripens its fruit 3 to 4 weeks earlier than other Fall-fruited raspberries, maturing its crop before the fall freezes. The summer crop is as early as that of June or about 5 days earlier than Newburgh.

TWO CROPS IN ONE YEAR

The plants are vigorous, healthy and hardy and increase rapidly. Buy a few plants this year and be well on your way to a fine patch of this wonderful berry. Just the berry for home gardens—provides berries for your table most all season. Only a few plants available—order early and avoid disappointment.

"NEW DURHAM"

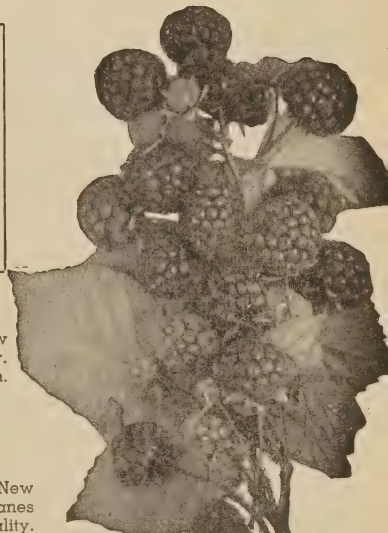

New red Everbearing varieties originated by Dr. Yeager of the University of New Hampshire. Healthy, hardy, vigorous growers and heavy producers. The canes grow 3 to 3½ feet tall, upright, ideal for picking. Fruit firm and of highest quality. Excellent for freezing or eating fresh. Prices same as New September above.

PLANT RIDER'S HARDY RASPBERRIES

RED RASPBERRIES

Latham

LATHAM—This variety is rated as the most valuable commercial variety. Latham is very hardy and does not winterkill even at temperatures down to 30 below zero. Berries are very large and firm. They are good keepers; good for canning and freezing.

CHIEF—The earliest of them all. Absolutely hardy. Easy to grow. Chief is ready for market when prices are highest. This variety was selected from 4,000 Latham seedlings by the Minnesota State Breeding Farm, and has become the best early red for general planting. Chief is a good moneymaker for the commercial grower and for the home gardener as well.

INDIAN SUMMER—This outstanding new variety is rapidly coming to the front as a commercial berry. Indian Summer will bear a full crop in the spring and another in the fall. Berries are extremely large, dark red color, and have a fine flavor.

SUNRISE—Here is a raspberry which has a better, richer red color. Fine flavor and fine texture. Ripens about two weeks earlier than Latham. Highly recommended.

SODUS—The leading purple raspberry. Recently introduced by the N. Y. Experiment Station. Berries are very large, firm, sprightly and good in quality. The plants are very vigorous and productive. More resistant to drouth than other varieties. Ripens shortly after Latham.

2-YEAR TRANSPLANTS—You save a year by buying bearing size and age transplants. We can furnish Latham, Chief, Sunrise, Bristol, Morrison, Cumberland, Sodus and Indian Summer at double the 1 year prices listed above.

BLACK RASPBERRIES

NEW BRISTOL—A new variety that shows much promise for the mid-west. Bristol is midseason, and produces large, sweet, firm fruit, jet black in color and nearly seedless. Plants are hardy, healthy and vigorous. Many growers in 1950 proclaimed Bristol the best Black Raspberry in existence.

NEW MORRISON—The new blackcap, New Morrison, has many fine qualities—extra large berries, rich flavor, few seeds, heavy yield. Berries are larger than Cumberland. They hold their size well until last picking. The thrifty, strong plants are heavy rooted and disease resistant. Unexcelled for canning, jams or jellies. Our supply of plants is still very limited and we advise ordering early.

CUMBERLAND—A leading black variety. Does well in any climate and can be depended upon to produce large crops. Cumberland berries are large and firm and do not crumble when picked. Seeds are small. Berries have a fine sweet flavor that makes them favorites of everyone.

NEW LOGAN—The leading commercial Black Raspberry in Michigan. Its popularity is constantly increasing. Each year more of the leading growers plant New Logan exclusively. They've found it most dependable, most satisfactory and most profitable.

GOLDEN QUEEN—An exceptional Raspberry. Hardy bush, producing large crops of golden yellow raspberries. Delicious eaten fresh, or frozen or in pies. You should have some Golden Queen in your planting of raspberries.

Bristol Black

Special! Extra

NEW OKANOMA RED (Trade Mark Registered) (Semi-Dwarf)

A new SEMI-DWARF sport of Red Delicious. Needs very little pruning. Grows fruit closer in on the tree, on heavy wood and will carry a heavier load without breaking.

This tree is easily thinned, requires less spray material because of open habit. Fruit hangs on tree five to ten days longer than other Red Delicious.

2 to 3 foot, \$1.85 each; 2 for \$3.60; 4 for \$7.00

NEW DELCON DWARF APPLE

A TRUE SEMI-DWARF APPLE TREE—12 FEET

Produces full size dark red fruit similar in shape to Delicious but without knobs. A naturally dwarf variety. Flavor is a combination of its parents, Jonathan and Delicious. Developed, tested and approved by Missouri State Experiment Station. Hardy wherever Red Delicious is successful.

2 to 3 foot, 2 yr. trees \$1.85 each; 5 for \$9.00

New Red Leaf Peach

A Two-Purpose Sensation

Beautiful striking
new RED FO-
LIAGE. ALSO
PRODUCES
WONDERFUL
FRUIT!

The bright red foliage is very ornamental in the spring, holding its color throughout the summer, turning deep maroon in the fall. You will be delighted with this new sensation in your yard or garden. The deep rose blossoms make a beautiful contrast with the red foliage. Its perfectly round fruit is delicious for eating and pickling.

3 to 4 ft., \$1.60; 2 for \$3.00

DWARF PEAR TREES

We have these in the Bartlett, Seckel and Dutchess varieties.

**Prices—2 to 3 foot, 2 year trees, \$1.60 each;
5 for \$7.50**

DWARF FRUIT TREE COLLECTION

We offer 1 each Delcon, Yellow Delicious, Jonathan **ALL FIVE TREES ONLY \$8.50**
apples, Dutchess and Seckel pears. Collection No. 25.

DWARF RICH CHERRY

Very bushy dwarf tree bearing bright red fruit of fine flavor and medium size. Extremely hardy. Also attractive ornamental tree as it is a solid mass of white flowers in early spring. 4 to 5 feet.

Price—2 to 3 foot, 2 yr. trees \$1.75 each; 5 for \$8.00

Amazing—New DWARF TREES RAISE FULL SIZE FRUIT IN YOUR OWN BACK YARD Dwarf Apple Trees

Bear Earlier Than Standard Trees— Take Only 15 Feet of Space

Now every home can have luscious home-grown apples. All you need to do is plant one or more Rider's Dwarf apple trees which can be planted in a space of 15 to 20 ft. They make a beautiful addition to your landscape and you will enjoy crops of fruit each year. These trees grow only 12 to 15 ft. tall at maturity. You will be able to pick the fruit from these trees standing on the ground within two years after planting.

Rider's Dwarf apple trees are propagated by budding the variety desired on a special type of Mailing root stock, imported from England.

IMPORTANT: Dwarf Apple trees should be planted with graft or union (the joining union between the trunk's base and root system) at least 1 inch above the soil surface. If the graft is covered, roots may form above the union, and the tree will develop into its original standard form and height. It is also well to stake dwarf trees for the first 2 years to furnish support from windstorm damage.

DWARF APPLE TREES

We have these in the new Red Delcon, Red Delicious, Yellow Transparent, McIntosh, Yellow Delicious and Jonathan.

**Price—2 to 3 foot, 2 yr. trees \$1.85 each;
5 for \$9.00**

DWARF OKA CHERRY

Larger than Sweet Cherries, the fruit is dark purplish red all the way through. This hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two for best results.

**Price—2 1/2 to 3 ft. trees, each \$1.85;
2 for \$3.60; 4 for \$7.00**

Dwarf Pear

PEARS

PEAR TREE PRICES

ALL VARIETIES EXCEPT MAX-RED \$1.75 each; 5 for \$7.50; 10 for \$13.00. 9/16 grade, 4 to 5 foot, 2 year. MAX-RED PEAR \$3.00 each; 3 for \$8.40.

MAX-RED PEAR—Plant Patent No. 741. A red sport of Bartlett with all the desirable qualities of Bartlett plus an attractive red color and 10% more sugar by actual test! As the color does not carry through into the flesh this excellent pear is being widely planted for commercial canners. In hardiness, Max-Red is comparable to Bartlett. The only new pear of proven outstanding merit!

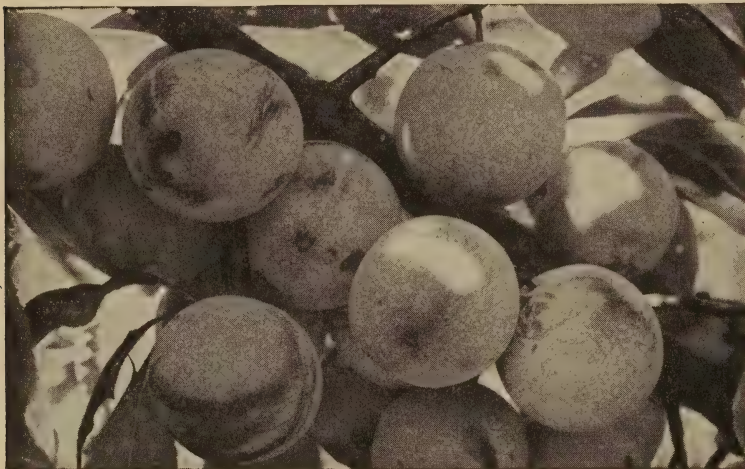

SECKEL (Sugar Pear)—Small size, yellowish russet coloring with red cheek. Flesh white, very juicy and melting. Ripens in September.

BUERRE BOSCH—Fruit very large, of distinct gourd shape, roundish at blossom end, with long, thin, tapering neck. Beautiful golden russet color. Flesh fine grained, juicy and melting, very delicious and high flavored. Ripens late September.

BARTLETT—Large, coloring when fully ripe to waxy yellow, with red blush. Juicy, melting, highly flavored. Fruit ripens in September.

KIEFFER—Best pear for large commercial planting. Ripens in October and November. Fruit large, of good quality; especially fine for canning.

OUR VARIETY
SELECTION
ONLY \$6.00

VARIETY LIST

STANLEY PRUNE—Superior to all prunes, as it often comes into bearing in three years, and ripens 10 days earlier than Italian or German prunes. Hardy, never winter kills. Very productive, fruit large, deep bluish purple, excellent quality. The best for commercial or home planting.

UNDERWOOD—A late introduction that is a vigorous grower with healthy disease-resistant foliage. Large heart-shaped firm fruit. Popular both in home orchards and for commercial growers.

WANETA—Very large, bright, red, very fine quality and flavor. A Hansen hybrid. Trees very productive and bear very young. We urge you to add some of these trees to your home orchard.

GREEN GAGE—Extra Large. Yellow when ripe. Sweet tart flavor. Tree is very vigorous and semi-dwarf.

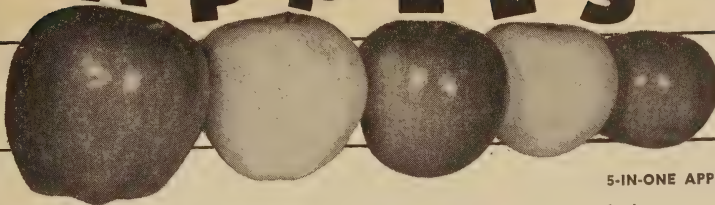

YELLOW EGG—Fruit of large egg shape, beautiful yellow color; flesh yellow. Very fine for canning and eating; very productive. Ripens in August.

BURBANK—Most prolific market variety. Tree hardy, vigorous, heavy yielder. Bears young. Fruit large and of excellent flavor. Ripens in August.

ABUNDANCE—A large early ripening table plum free from black rot. A hardy Japanese variety. It is very sweet and delicious. Red skinned with yellow flesh.

MONITOR—Largest red plum. Red, sweet and juicy. Proved to be one of the sweetest plums at Iowa Agricultural trial plots. Prolific bearer and very hardy.

APPLES

5-IN-ONE APPLE

SUMMER APPLES

ANOKA—A fine extra hardy apple that is noted for its early bearing habit. Usually starts bearing the year after planting. The fruit is large and of good quality. Anoka is striped red in color.

YELLOW TRANSPARENT—Favorite yellow summer apple. Abundant bearer fruit medium large, golden yellow, juicy and tender. Excellent apple for eating or cooking.

DUTCHESS—Very good summer apple for pie, cooking and general use. Bears very young and heavily. Fruit large, striped red.

RED JUNE—Ripens about a week ahead of Yellow Transparent. Fruit bright red. The best red early sweet apple with flesh crisp and snowy white. Excellent for eating or cooking. Very hardy and bears heavy.

HARDY IOWA GROWN APPLE TREES

Rider's Apple Trees are produced on new ground each year, giving you husky, healthy trees. Our trees are tractor dug, getting all the root system. They are then carefully graded and tied. Your investment in these fine trees will bring you dividends for many years to come.

FALL APPLES

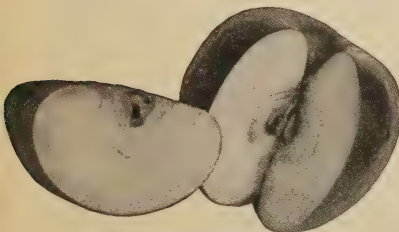

McINTOSH—Medium size, deep crimson color. A high quality sub-acid flavor. Due to its high quality and attractive appearance, it commands a ready sale at fancy prices. Comes into bearing about the fourth year. Ripens October to January.

WEALTHY—A well known fall apple that does well everywhere. Large size fruit with red stripes. Fruit is tender, sweet and juicy. Bears young and heavily.

CORTLAND—Popular new apple. Medium size tree, early and consistent bearer. Large well colored, crisp white flesh apples.

APPLE ORCHARD SPECIAL NO. 13

OUR VARIETY SELECTION
10 Trees in 4 or More Varieties
JUMBO, 5 to 7 FOOT TREES
EXPRESS ONLY—10 TREES, \$11.00

Haralson Apple

BEACON—Outstanding new fall apple. Deep red. Highest quality. A must in every modern orchard.

WINTER APPLES

GRIMES GOLDEN—A golden-yellow apple filled with rich, spicy flavor. Bears young and heavily. An extra good all-round apple.

YELLOW DELICIOUS—A fine winter apple. Comes into bearing early. Produces large crops. A hardy vigorous grower. A fine yellow apple which is near the top in commercial plantings.

RED DELICIOUS—Delicious in every sense of the word. Large fruit of solid red color. Superb quality and flavor. Hardy heavy bearer.

DOLGO CRAB—The perfect crab. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young.

HARALSON—One of the best winter apples for the North. Exceptionally hardy. Large in size, solid red, tender, juicy flesh.

RED JONATHAN—A grand apple and probably the most widely planted of them all. Large fruit with crisp juicy flesh. The best of quality and flavor to be had. This new improved variety starts to color early to a rich dark crimson.

PRAIRIE SPY—Very hardy, fine new apple for the North. Large red fruit of exceptionally fine quality, with crisp juicy flesh which has a pleasing distinctive flavor.

MINJOHN—"A Minnesota Jonathan." Very hardy and dependable; brilliant all red apple. Bears abundantly and regularly. More suited for northern territory than its parent, Jonathan.

WHITNEY—Perhaps the most popular of all crab apples. Fruit large, light yellow, striped red. Flesh crisp. Fine for eating, pickling, or apple butter.

NORTHWEST GREENING—Very large green fruit that turns to a pale yellow when ripe. Good for cooking, especially pies. Long winter keeper.

APPLE TREE PRICES

All varieties except 5 in 1—2 year 4 to 5 foot trees—9/16 to 11/16 grade, \$1.05 each; 5 for \$4.75, 10 for \$9.00, 50 for \$40.00.

NOTICE—We have big 3-year-old apple trees 5 to 7 feet tall, with 9/16 to 1 inch trunk diameter at following prices: \$1.40 each; 5 for \$6.50; 10 for \$12.00; 50 for \$55.00. Varieties available are Anoka, Yellow Transparent, McIntosh, Grimes Golden, Yellow Delicious, Red Delicious, Jonathan, Prairie Spy, Wealthy, Dutchess.

CHERRIES

RIDER'S HARDY SOUR CHERRIES

NEW FRUITMORENCY CHERRY—This vastly improved strain was developed in Fruitland, Idaho. Outstanding characteristics are its semi dwarf habit of growth and the larger fruit which is produced in large quantities.

PRICE—2 Year, 3 to 4 Foot Trees, \$1.85 each; 5 for \$9.00.

LARGE MONTMORENCY—Best large late pie cherry, ripening the latter part of June. The fruit is extra large, bright red, firm and fine for canning and shipping. A strong grower. Perfectly hardy. Our best selling cherry variety.

EARLY RICHMOND—Excellent sour variety. Similar to Montmorency but ripening two weeks earlier. A very good companion to plant with Large Montmorency to lengthen the fruiting season.

ENGLISH MORELLO—Almost black when fully ripe. Large fruit. Makes fine jellies, excellent for preserving and canning. Ripens in July after other varieties have been used. Extremely hardy.

SOUR CHERRY TREE PRICES—9/16 Grade 3 to 4 Foot, 2 Year Old Trees—\$1.65 each; 5 for \$7.50; 10 for \$14.00. All Varieties Except Fruitmorency.

SWEET Cherries

BING—One of the best known and most popular dark Sweet Cherries. Fruit large, dark colored, nearly black. Considered one of the most profitable. Tree hardy and vigorous. Seem to succeed in the East better than most Sweets. Ripens late June.

BLACK TARTARIAN—Very large, bright purple. Juicy, sweet, rich and fine. Ripens in early July.

YELLOW GLASS—A fine yellow variety, very hardy, large sweet cherries. As a yellow cherry it is one of the best. Has slight red cheek when fully ripe.

SCHMIDT'S MIDSEASON—Especially noted for coming into bearing at an early age. Bears heavily, is very hardy and tender, very juicy, fine flavor. Blackish purple. Ripens July.

METEOR CHERRY NO. 6

Similar to Montmorency. Introduced by Minnesota Experiment station. Exceptionally hardy. Strong and vigorous grower. Fruit large attractive bright red. The skin is thin and tender. Flesh light bright yellow. Medium firm and medium juicy.
PRICE—3 to 4 foot trees, 2 year — \$2.00 each; 5 for \$9.50.

SWEET CHERRY TREE PRICES—9/16 Grade 4 to 5 Foot 2 Year Trees—\$1.75 each; 5 for \$8.00; 10 for \$15.00.

HANSEN BUSH CHERRY

Small Bush Cherry for the North. Very hardy, producing good quality fruit.

3 TO 4 FOOT TREES—75c each

Yellow Glass

HARDY APRICOTS

SUPERB APRICOT—The favorite Apricot of the Middlewest. Golden yellow fruit, medium large, flesh firm, high quality, and flavor. Splendid for eating fresh, pies and canning.

MOOREPARK APRICOT—The standard Apricot. Large roundish oval, orange with a faint roundish blush cheek. Yellow flesh. It is a perfect freestone of wonderful quality. Ideal for desserts, fresh, frozen, dried or canned. The trees grow a little larger than the average peach and are just as hardy. A hardy, rare, practical, productive fruit.

CHINESE GOLDEN—Extremely hardy Apricot. Large full flavored fruit. Very dependable bearer.

APRICOT PRICES—9/16 grade, 4 to 5 foot, 2 year trees. \$1.25 each; 5 for \$5.00; 10 for \$9.50.

Superb

Perennial Department

HARDY PHLOX

AFRICA—Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large compact florets. Good strong stems. 30 inches.

BRIGHT EYES—This is a seedling of the well known Daily Sketch and possesses its parent's fine quality. The florets are extraordinarily large, possibly the biggest of any Phlox and amazingly brilliant red with dark eyes or centers. Bright Eyes makes a great show and is conspicuous for its size and magnificent color.

BLUE BOY—Blue Phlox just do not exist. In semi-shade, however, certain varieties develop good blue tints. So far Blue Boy is the nearest to dark blue we have been able to come. Planted with Mary Louise a stunning contrast is made. Blue Boy is a good grower and of medium height.

DAILY SKETCH—Large trusses of lustrous pink with crimson-rose eye. Very large single florets $1\frac{1}{2}$ inches across. $3\frac{1}{2}$ ft.

APPLE BLOSSOM—One of the loveliest of all the pastel shades. Soft apple blossom pink, 2-2 $\frac{1}{2}$ inch florets. 2 $\frac{1}{2}$ -3 feet tall.

CHARLES CURTIS—The most brilliant Phlox in cultivation. The color is outstanding and difficult to describe. Sunset-red probably comes nearest to it. It is a fine strong grower about 2 $\frac{1}{2}$ to 3 feet tall, has good clean foliage. The flower head is large and unusually clear and sparkling due to the fact that the flowers do not discolor in the sun or fade with age.

MARY LOUISE—The finest white—as white as Carrara marble. Pure white heads of unusually large size, reminding one of Carrara marble; the individual flowers are twice as big as other white Phlox. Perfectly beautiful; unquestionably the best white to date. The favorite in English gardens. A good grower with clean foliage and a prolific bloomer. Of medium height.

SIR JOHN FALSTAFF—A giant among Phlox and unquestionably the most outstanding variety we have seen. It is so far in advance of all others that we predict it will retain the lead for a very long time to come. Color is a rich luminous salmon-pink, one of the loveliest colors in the floral pageant of summer.

45c each; 3 for \$1.20

HEMEROCALLIS "DAY LILIES"

In recent years so much progress has been made in hybridizing Day Lilies that we can offer these in proved varieties that will bloom from Spring to Fall with variation of colors.

DAY LILY

AUGUST PIONEER—Profuse bloomer, one of the late blooming Multiflora hybrids flowering from mid-August to mid-September. Miniature flowers of chrome-orange with the outer half of the petal flushed red. Very valuable for its late season of bloom. 42 inches.

MIKADO—Rich orange with a large spot of mahogany red in each petal. 5 inches in diameter. Striking and unusual. Usually blooms a second time. The outstanding charm of this remarkable Day Lily is due to the bold contrasts and perfection of form. Flowers during June and July. 3 feet.

OPHIR—Deep, golden yellow. 5 inches across, 25-30 on one stem. One of the finest of all varieties. Blooms July and August.

45c each; for \$1.20

GAILLARDIA

THE NEW BURGUNDY—Here is a worth-while satiny maroon-orange flower with deeper color on rim and yellow center. This variety blooms all season and gives a lot of satisfaction in every garden. Height about 18-24 in.

45c each; for \$1.20

HARDY FERNS

INTERRUPTED—Found in rather dry shaded places. Does well under cultivation and in boxes. 3 feet.

OSTRICH PLUME—Very graceful with finely cut pinnules 2-3 feet.

MAIDEN HAIR—Most attractive of our Native Ferns. Black stems with delicate green fronds. Likes moist spots. 2 feet.

45c each; for \$1.20

(Columbine)

Mrs. Scott Elliott's Hybrids. Excellent mixture of lovely shades. Flowers have unusually long spurs. Very attractive when grown in groups of 3 or more. Prefer partially shaded location.

40c each; 3 for \$1.10

3 RED HOT \$1
POKER

(Tritonia Pfitzeri)

Flaming scarlet flowers, the opened lower petals rimmed with orange. Grows 8 to 24 inches tall. Blooms August to October.

45c each; 3 for \$1.20

IBERIS

(Perennial Candytuft)

Snowflake. Compact, dwarf growing plants widely used in the rock garden, for edgings and along walks. Plants show mass of snow-white blossoms in spring, make a somewhat shrubby growth with dark evergreen foliage.

40c each; 3 for \$1.10

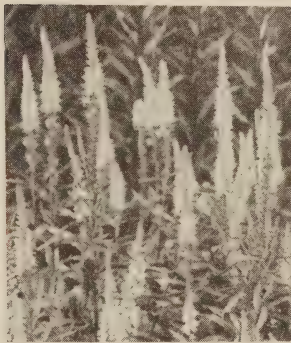

VIOLA (Sweet Violet)

ROYAL ROBE—This variety is a lustrous shade of deepest violet-blue. Blossoms are delicately fragrant and open out flat like a pansy. A few plants in the garden will serve quantities of bloom either during early winter or early spring.

APRICOT GEM—Apricot in color.

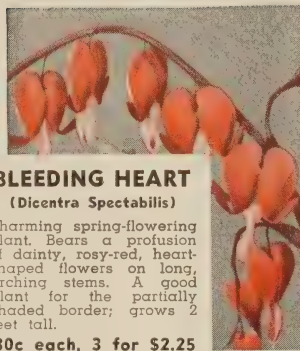

45c each; 3 for \$1.20

BLUE SPIRE VERONICA

Beautiful blue spires light up the garden from July through August. Hardy About 2 feet tall; excellent for cutting.

40c each; 3 for \$1.10

BLEEDING HEART
(Dicentra Spectabilis)

Charming spring-flowering plant. Bears a profusion of dainty, rosy-red, heart-shaped flowers on long, arching stems. A good plant for the partially shaded border; grows 2 feet tall.

80c each, 3 for \$2.25

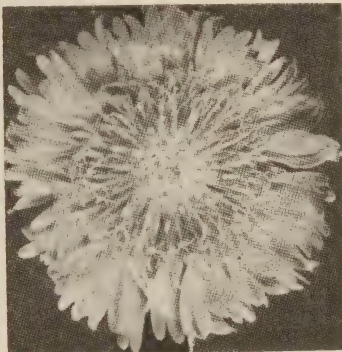

CREEPING PHLOX

Beautifies Rock Garden, Border and Terrace—45c each; 3 for \$1.20
(Phlox Subulata). Just the plant you have been looking for to cover that unsightly bank or terrace, especially one which is rather hard to cultivate. Also fine to add that little splash of color in your Rockery. In other words, the ideal plant for a ground cover. It is one of the most beautiful of the low creeping plants. Makes a beautiful bank of color during April and May. Foliage is evergreen and mossy. Hardy under most conditions. Plant 1 foot apart each way to make dense ground cover in a short time. We offer this delightful plant in red, pink, blue and white. Specify color wanted.

ACHILLEA

(Milfoil or Yarrow)—Pure white, double flowers; very showy in the border and valuable for cut flowers. Stems are 30 inches tall; very attractive foliage. Blooms in July and August. Very free flowering.

40c each; 3 for \$1.10

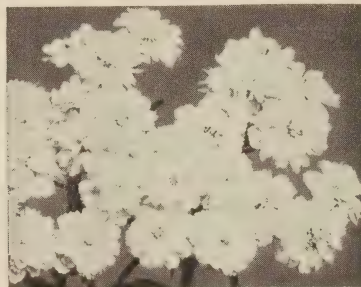

STOKESIA

(Cornflower Aster—Stokes' Aster)

Blue Danube. One of the loveliest hardy perennials in form and color. Deep blue flowers 6 to 8 inches across are borne on plants 12 to 15 inches tall. A really worthwhile addition to any garden.

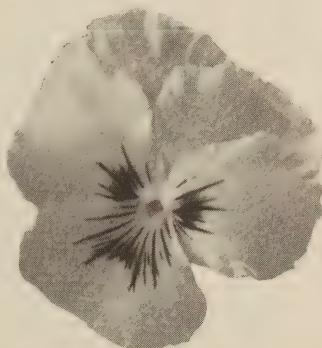

45c each; 3 for \$1.20

CHINESE LANTERN PLANT

An unusual plant, noteworthy for its large and showy, lantern-shaped fruits. It is becoming more popular each year for decorative purpose. The color of its lantern fruits is orange-vermillion. After drying they become everlasting. Single plants produce as many as 30 lanterns, which are in such demand that they sell readily in any flower market and have proven highly profitable when grown commercially. Field-grown plant.

45c each; 3 for \$1.20

HARDY PERENNIAL PLANTS

Provide Loads of Cut Flowers Year After Year

DELPHINIUM

WREXHAM GIANT STRAIN. This English strain is one of the finest developed in the Delphinium family. Enormous flowers on solid erect spikes. Color delicate shades of blue mauve and pink.

BLACKMORE & LANGDON. 4 to 5 feet. Semi-double and double blooms in shades of blue, lavender, and purple.

40c each; 3 for \$1.10

HARDY ASTER

HARRINGTON'S PINK. True pink. Blooms cover a foot of bushes.

MT. EVEREST. Finest and best white. Tall, well shaped.

BLUE PLUME. Choice deep blue.

40c each; 3 for \$1.10

PERENNIALS

Let These Hardy Plants
Put New Life Into Your Beds
Sturdy, 2-Year
Field-Grown Plants
Will Bloom This Summer

LATHYRUS LATIFOLIUS

(Perennial Sweet Pea)

A trailing or climbing form of Sweet Pea. Hardy and easy to grow. Valuable for growing along fences, trellises and arbors, and for trailing over banks. Colorful blossoms are fragrant and bloom continuously from spring until fall. Your choice of colors: red, pink, white.

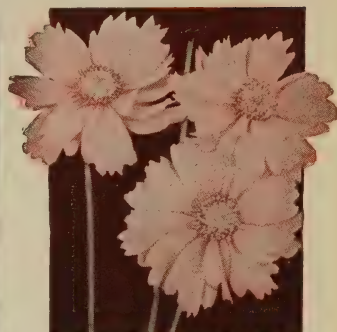

40c each; 3 for \$1.10

Lily of the Valley

Favorite perennial. Unsurpassed for fragrance.

40c each; 3 for \$1.10

COREOPSIS

(Calliopsis)

Mayfield Giant. Large, single flowers of bright golden-yellow. Bloom in June and July. Plants grow 2 feet tall.

35c each; 3 for 95c

DOUBLE HOLLYHOCKS

A new Chater's strain of an old favorite garden flower. Excellent variety for a colorful background; grow 4 to 5 feet tall. Bloom June and July. Being Hybrids they come in mixed colors only.

40c each; 3 for \$1.10

HARDY CARNATIONS

We list the following varieties:

JUNE CARMINE—Bright carmine pink.

WALLACE RED—Bright red; very hardy.

40c each; 3 for \$1.10

SWEET WILLIAM

Large showy flower-heads composed of numerous good-sized individual flowers. Blooms throughout most of the summer. Height 12-18 in.

Mixed Colors, 40c each; 3 for \$1.10

FEVERFEW

Hardy, Dwarf edging plant. Double white flowers resembling Pompon Mums, June to October.

40c each; 3 for \$1.10

NEW! DWARF PEACH

BEAR EARLIER — HARDIER

EASY PICKLING — SPRAYING

9/16 to 11/16 Grade—4 to 5 ft. 2 year trees, \$1.60 each; 5 for \$7.50. Available in Belle of Georgia, Elberta, Hale Haven, J. H. Hale.

Fertile Hale Peach

PEACH TREE PRICES—9/16 to 11/16, 4 to 5 foot. All varieties \$1.10 each; 10 for \$10.00; 50 for \$45.00.

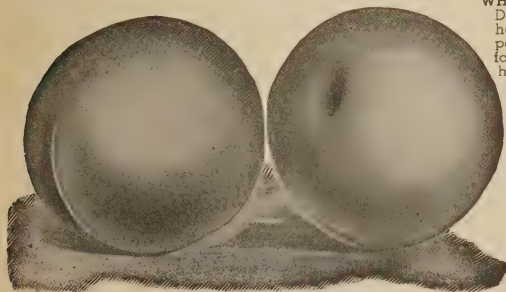

GOLDEN JUBILEE—Tree habits and fruit resembles Elberta but ripens about one month earlier. The skin is yellow with red blush, flesh golden yellow, juicy, tender and sweet. Hardy freestone, regular bearer.

HALE-HAVEN—Introduced by Michigan Experiment station. A cross between J. H. Hale and South-Haven. Yellow flesh of excellent quality. Ripens latter part of August. A strong grower and very hardy.

DIXIGEM—The Dixigem ripens several days ahead of the Golden Jubilee. The fruit is medium size, ovate, with attractive red blush covering about half the surface. The ground color is a bright yellow. The flesh is yellow, medium to firm, having a fine texture and excellent flavor. It is almost a freestone when fully ripe and is usually semi-free at shipping stage.

FAIRHAVEN—The new wonder peach. Heavy producer, hardy. At least half of the fruits of Golden Jubilee will have been picked when Fairhaven begins. Fruit is medium large, nearly round, bright golden in color, with a bright red cheek. Skin smooth and tough. It resists browning, which is a great advantage, especially in processing.

BELLE OF GEORGIA—Fruit large, bright, attractive red almost covering the peach with white background. Flesh white, highly flavored and very firm and known universally as one of the best shipping white peaches in cultivation. Tree very vigorous, hardy and productive. Are you planting to supply the demand for a good white peach? Plant Belle of Georgia.

NEW! FERTILE HALE PEACH—PAT. NO. 175

FERTILE HALE PEACH—Patent No. 175—An improved Hale type peach which is self fertile requiring no cross pollination. Hardier and more vigorous than J. H. Hale or Elberta. Fruit is yellow with deep carmine blush, ripens with last of Elbertas. An outstanding commercial variety.

SOUTH-HAVEN—This variety is the hardiest of all the commercial varieties. Fruit is large, round and uniform. Skin is deep yellow with red cheeks. South-Haven is a good pollinizer to plant with other varieties.

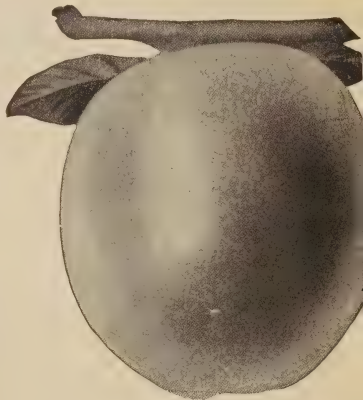

ELBERTA—A standard market peach. Fruit very large, oblong shape. Yellow tender flesh, with a firm skin. A good shipper. Ripens first week in September.

RED HAVEN—Matures very early, about a month before Elberta. Fruit medium in size, of slightly elongated shape, and almost completely covered with a brilliant red color. Skin is smooth and tough. Flesh yellow, firm, fine textured, sweet, and of good quality. A perfectly fertile variety and freestone. It is safe to classify Red Haven as the outstanding early peach of tomorrow. Be the first in your locality to possess this rare and most profitable variety.

POLLY—You must have Polly Peach if your peach orchard is to be complete. Finest quality and flavor of all peaches. Large size fruit is handsomely blushed, and has white firm juicy flesh of the richest most luscious flavor. Freestone. Bears young and heavily in all sections. Will withstand more bitter cold than any other variety.

NOTICE

All varieties listed are Freestone except Heath Cling.

Dixigem

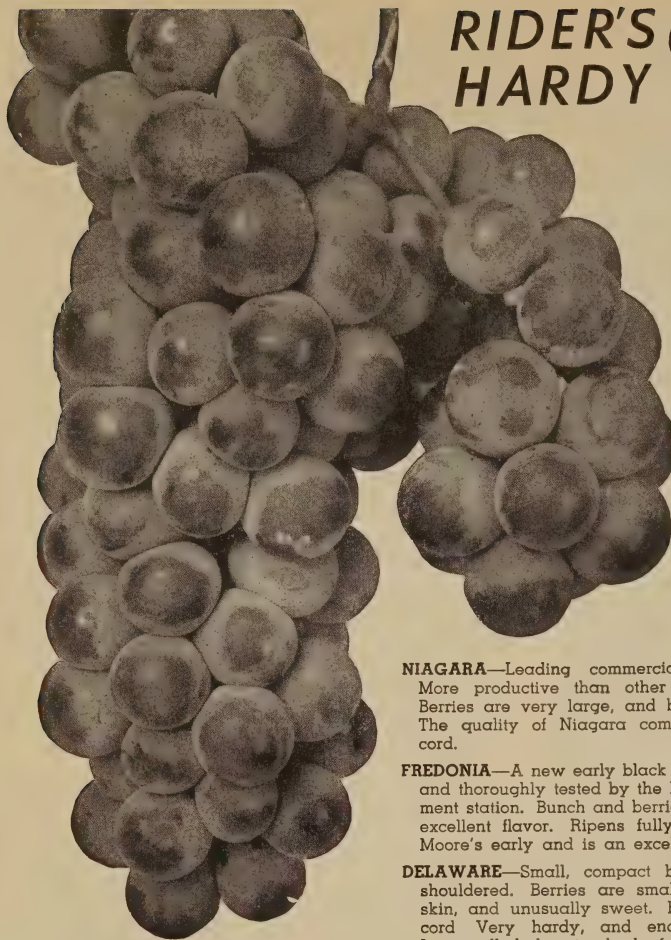

WHITE HEATH CLING—Fruit tender, juicy, melting, luscious, firm. Does not bruise easily. Tree is strong vigorous grower. Like most hardy peaches it is hardy and buds will stand lower winter temperatures. Ripens about 40 days after Elberta. A wonderful peach for canning, pickles and preserves. A few should be planted in all home and commercial orchards.

DELICIOUS NECTARINES

(Surecrop)

Loads of delicious sweet fruit in the late summer. Smooth skin. Mellow, rich, juicy flesh like Peaches. Very fragrant and attractive. Wonderful fresh or canned. Hardy as Peach trees and self-pollinizing.

PRICES ON NECTARINES—9/16 to 11/16 trees—\$1.75 each; 10 for \$16.00; 50 for \$75.00.

Moore's Early

RIDER'S GRAPE PLANTS

SENECA—Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage.

VAN BUREN—Absolutely new, although it has been thoroughly tested in all grape growing sections. Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape is on the market.

GOLDEN MUSCAT—See No. 3 color page for information and prices on this wonderful grape.

CONCORD—Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and disease. Ripens mid-September. America's leading wine and table grape.

NIAGARA—Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord.

FREDONIA—A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's early and is an excellent shipper.

DELAWARE—Small, compact bunch, sometimes shouldered. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy.

Caco

CACO—This variety is a red grape of the highest quality. Caco is so sweet that the grapes can be eaten 10 days or so before ripening. Caco makes a strong vigorous vine growth and is very hardy. This variety ripens one week before Concord.

BETA—Medium size black grape. Very hardy. Highly productive. Good quality. An excellent grape for the Northern States.

MOORE'S EARLY—An early blue black grape similar to Concord in looks and quality, but is about 15% larger than Concord. This variety ripens about two weeks before Concord. Moore's Early is distinguished by a peculiar sweet flavor all its own. The vines are heavy bearers and the foliage is tough and healthy.

GRAPE ARBOR COLLECTION NO. 11

For the average home grape arbor we offer our favorite red, white, and blue flag collection of hardy delicious grapes, 5 each strong 1 year vines of Caco red, Niagara white, Concord blue.

ALL 15 No. 1 plants only \$2.25.

Giant Cultivated BLUEBERRIES

MONEY MAKERS

Biggest money-makers as a commercial proposition—500 crates per acre, netting \$2.00 per case. More profits per acre than any other small fruit if your ground is suitable. Also an attractive ornamental from early spring until late fall—full of pink buds, which open into bell-shaped, white flowers starting in June. Heavy producer—4 bushes in your yard will provide enough berries for Blueberry pie throughout the season. Blueberries require an acid or semi-acid soil, good drainage and moderate supply of moisture; plant 5 x 7 feet apart.

1 4-year-old and
1 5-year-old plant
A \$4.75 Value for only

\$3.95

Net,
not prepaid

HOW TO GROW BLUEBERRIES SUCCESSFULLY

Make an opening three or four times larger than the roots, large enough to receive all the roots without crowding. Mix the dirt, removed from holes, half and half with Acid Peat, or some acid material such as decayed leaves, rotten straw or vegetable refuse, firm this well around the roots of the plants. We recommend that a handful of sulphur be put around each plant in the spring. Give the one-year plants one-half ounce of Sulphate of Ammonia, for the older plants increase one-half ounce for each additional year. Do not let the Sulphate of Ammonia get in contact with the foliage. See garden supply page for Sulphate Ammonia. NOTE—Two or more should be planted for pollenization.

Ornamental Giant Flowering Cannas

Rider's Cannas are plump, 2 to 5 eye divisions; properly cured and stored.
RICHARD WALLACE—Fine yellow variety. Large canary yellow flowers 4 to 5 inches in diameter. Green foliage. Medium height 3 to 4 feet.
PRESIDENT—Four feet tall, glowing scarlet, blue green foliage. Extra large trusses of brilliant color. The finest red canna of today. The foliage is entirely free from disease.

COLLECTION NO. 40

LARGE CANNA 10 Each of 4 varieties

ORNAMENTAL CLIMBING VINES

CLEMATIS JACKMANI—The most popular of all the large-flowering clematis in America, with large, velvety, violet-purple flowers. Grows rapidly through the summer and early autumn. Its beauty and perfection can be enhanced by cutting plants back to 3 feet. 95c each; 2 for \$1.80.

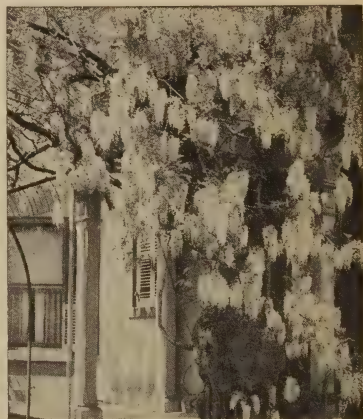

BOSTON IVY—One of the finest hardy climbers for covering walls and trunks of trees, as it clings firmly to any surface. Foliage deep green in summer, bright red in autumn.

SILVER LACE VINE—Throughout the summer and fall it produces large, foamy sprays of creamy white flowers resembling a cloud of lacy, misty white, shot with tints of cream and pale rose.

CHINESE PURPLE WISTERIA—Elegant and very rapid grower. Has long pendulous clusters of blue violet flowers in May, June and Autumn.

ORIENTAL BITTERSWEET—Rapid growing twining vine. Bright orange berries with scarlet seeds hanging on in autumn.

CLIMBING VINE PRICES—except Clematis Jackmani—2 year No. 1 Vines—80c each; 5 for \$3.50; 10 for \$6.75.

Wisteria

"RIDER'S SUPERB" DAHLIAS

Our Dahlias are grown on good Dahlia soil, properly stored and cured for best results in your garden. We have them in named varieties and also in a good mixture as listed below.

VARIETY LIST

MRS. I. D. WERNER—Blooms nine by four inches. Giant orchard pink. Large blooms, very popular.

GLORY ROSE—A Rosy lavender. Unusually good in bloom size. Carries lots of flowers too.

RED CHIEF—Striking cardinal red, perfectly formed, ball dahlia.

MARSHALL PINK—Medium size, perfectly formed, light pink blooms. A high rated Dahlia.

AVALON—Clear canary yellow. Long stem. Very good to hold up as cut flower.

STORM KING—Large red dahlia of striking beauty. Very double.

JEAN TRIMBLE—Sometimes semicactus. Rich Petunia violet. Many blooms close to 12 inches in width and 7 inches in depth.

SHERWOOD PINK—Our favorite pink. Large strong stems with large gorgeous pink blooms. A strong grower and beautifully formed flower.

LITTLE DUKE—A new variety. Medium size pompon dahlia. Dark red to burgundy, round ball shaped flowers on long stems.

WHITE FAWN—Beautiful shaped blooms of gleaming white on slender stems. Excellent cut flower.

DAHLIA PRICES

NAMED DAHLIA PRICES—35c each; 4 for \$1.20; **MIXED DAHLIA PRICES**—25c each; 5 for \$1.00; 10 for \$2.75.

ORNAMENTAL HEDGING

BARBERRY THUNBERGI—Makes a dense thorny hedge, green in summer and red in fall. Has attractive red berries. Is somewhat slower growing than Privet but many consider it a superior hedge when full grown.

12-18 inch: 10 for \$2.00; 25 for \$5.00; 100 for \$18.00.

AMOR RIVER NORTH PRIVET—Hardest of all hedges, grows quickly and makes dense hedge. Succeeds in all types of soil. Has no thorns. Small shiny green leaves and green or olive green branches.

18-24 inch: 10 for \$2.00; 25 for \$4.00; 100 for \$15.00.

SPIREA VAN HOUTTEI—Hedging grade. Best sort for tall unpruned hedges. You see Van Houttei hedges everywhere. Perfectly hardy and will grow on any soil.

18-24 inch: 10 for \$2.00; 25 for \$5.00; 100 for \$18.00.

DWARF BLUE-LEAF ARTIC WILLOW (Salix purpurea)—Charming low growing Willow; suited for hedges and borders.

12-18 inch: 10 for \$4.00; 25 for \$8.00; 100 for \$30.00.

SIBERIAN PEA TREE (Caragana)—Grows rapidly to 12 ft. making almost solid wall to stop winds. Drouth, hot winds, or grasshoppers cannot stop it. Absolutely hardy anywhere. Also makes ideal hedge—very tight and neat.

18-24 inch: 10 for \$2.00; 25 for \$3.00; 100 for \$10.00.

TARTARIAN HONEYSUCKLE—Its glossy foliage comes very early in the spring. Its grayish-white wood is beautiful at all seasons of the year. Stands heavy trimming and drought. Its fragrant red and pink blossoms fill the air when in bloom, and the bright colored berries make it beautiful well into the fall. A fine hedge plant. Grows 8 to 10 ft. Can be trimmed any height.

18-24 inch: 10 for \$6.00; 25 for \$12.50; 100 for \$48.00.

Privet Hedge

MULTIFLORA ROSE HEDGE

Plant a living barb wire fence. Low initial cost. No repairs. Multiflora Rose Hedges are stock proof. Will not spread. Does not sap ground on either side. Grown on soil of average to good fertility it will produce a hedge that will turn any kind of livestock except small pigs.

Prices—18 to 24 inch, 25 for \$3.25, 50 for \$5.25, 100 for \$9.45, 500 for \$45.00, 1,000 for \$85.00; small 6 to 12 inch plants, 25 for \$2.15, 50 for \$3.25, 100 for \$5.50, 500 for \$25.00, 1,000 for \$45.00.

ORNAMENTAL SHRUBS

Deutzia

GOLDEN NINE BARK—The foliage is a light golden color and is very noticeable in contrast with the bright greens of the lawn and other shrubs. Grows 8 to 10 feet, unless pruned. Fully hardy.

Snowball

Persian Lilac

NEW IMPROVED EVERBLOOMING SPIREA BILLIARDI. A new bright pink strain, blooms a profusion of handsome spikes, which are most attractive and well adapted for cutting. Blooms entire season.

FLOWERING QUINCE—One of the earliest shrubs to bloom. Covers the branches with red blossoms before the leaves appear. Grows 4 to 6 ft. tall.

CARYOPTERIS (Blue Mist)—Often called blue spirea. Mound-like shrubs grow 2 to 2½ feet, covered with misty blue flower clusters from July until September.

PURPLE FRINGE (Smoke Tree)—Unique spreading tree-like shrub with large leaves. Overhung to mid summer by cloud like masses of mistlike flowers having the appearance of smoke. Foliage changes to brilliant red in fall.

TAMARIX (Hispida)—Graceful, feathery, silver green foliage. A profusion of pink flowers during August and September; bloom panicles 9 to 12 inches long.

SPIREA ANTHONY WATERER—Foliage is very handsome, being variegated with creamy white or yellow. Remove flowers as they fade and shrub will continue blooming all summer. Reddish pink flowers.

SPIREA VAN HOUTTEI—One of the finest shrubs for everyone. The flowers are pure white and are borne in dense clusters along the whole length of the stem. This Spira is equally effective as single specimens or as a trimmed hedge.

FLOWERING ALMOND—One of the most charming early spring flowering shrubs. Comes into full bloom before the leaves appear, producing full clusters of double rose petaled flowers, snuggling tight to the twigs.

BUDDELIAS—Large flowers of rich reddish purple, borne in long panicles, often a foot in length. Noted for extreme brilliance of color.

Buddleias

10 Hardy Shrubs
All Different. Our
Variety Selection.
Only \$6.00

**RIDER'S HEAVY TWO
YEAR FIELD GROWN
PLANTS—80c each; 5
for \$3.50; 10 for \$6.75**

Flowering SHRUBS

PHILADELPHUS VIRGINAL (Mock Orange)—Finest of the new mock oranges. Very large white fragrant flowers. Blooms throughout the summer.

VIBURNUM (Snowball)—Pure white blossoms, with heavy dark leaves. Shows up remarkably well when planted as a specimen.

DEUTZIA (Pride of Rochester)—Here is a shrub that is different and should be planted in every yard. Large white flowers tinged with rose. Profuse bloomer. Very hardy.

DOGWOOD—Large white flowers appear in the spring before the leaves. Scarlet fruits are borne in autumn and the leaves turn to a deep red. Very hardy shrub.

HONEYSUCKLE ZABELI—Popular shrub. Loaded at blooming time with masses of red flowers, claimed to be more nearly a true red than any other sort. Choice.

Hydrangea P. G.

BEAUTY BUSH—A fitting name for this really beautiful plant from China. Its drooping branches thickly covered with delicate pink fragrant flowers in May and June. 4 to 6 feet at maturity.

FORSYTHIA GOLDEN BELL—A beautiful shrub. Its large rich yellow blossoms completely cover the wide spreading branches in early spring. Matures at 6 to 10 feet.

WEIGELA ROSEA—Very floriferous, producing quantities of large showy, trumpet shaped pink flowers in June. Matures at 3 to 4 feet.

LILAC ROTHOMAGENSIS—The lovely lazy Chinese lilac, known as improved Persian. Strong arching branches are profuse with large loose clusters of beautiful rose lilac. Excellent for foundation planting.

SNOWBALL HYDRANGEA—AG—Large flat heads of snowy white flowers in June and July. Matures at 4 feet. Will do well in shady spots where other shrubs will not thrive.

HYDRANGEA P. G.—Immense panicles of bloom a foot long. White at first, turning to rose. Commences to bloom in August. Matures at 8 to 10 feet.

WEeping BIRch

NOTICE—Forest and shade tree seedling prices are on back of order blank.

CUT LEAF WEEPING WHITE BIRCH—One of the most beautiful weeping trees now offered. Pyramidal in growth habit. Dark green leaves and shiny white bark as tree matures.

5 to 6 foot tall—\$3.75 each; 5 for \$18.00.
NIOBE WEEPING WILLOW—A large tree with long drooping branches. Fine for parks, near rock gardens or along streams. Golden yellow branches. Very attractive in winter as well as summer.

5 to 6 foot tall—80c each; 5 for \$3.75; 10 for \$6.00.
BIRCH, WHITE (European)—Erect growing. Branches slightly drooping and attractive bark which is almost white.

5 to 6 foot tall—\$2.50 each, 5 for \$12.00.

PIN OAK—Fastest growing of all the Oaks. Actually grows almost as fast of the American Elm. It is one of the most enduring of all trees. For street and lawn planting it has no equal. The rich foliage is deeply cut and colors to a glorious coppery red in the fall.

4 to 5 feet. \$3.75; 5 for \$17.00.

CHINESE ELM—Tree upright, extreme end of branches drooping. Very dense, making good shade. Fast growing and resistant to drought and cold.

4 to 5 foot tall—80c each; 5 for \$3.75; 10 for \$6.00

Our Trees Are Well Rooted, Nicely Branched and
Well Shaped!

Weeping Willow

Hopa Flowering Crab

GREEN ASH—One of the best native trees, leaves dark green and effective throughout the summer. Native throughout America.

5 to 6 foot tall—\$2.25 each; 5 for \$10.75.

MORaine LOCUST (Plant Patent No. 836)—This new shade tree is thornless and seedless. Resistance to disease and insect damage, absence of seed pods and the quick crumbling of Moraine Locust leaves make this tree ideal from the garden maintenance standpoint.

5 to 6 foot tall—\$4.50 each; 5 for \$21.00.

NORWAY MAPLE—Hardy popular tree. Fine for street planting. Spreading habit.

5 to 6 foot Whips—\$1.75 each; 5 for \$8.25.

SCHWEDLERS MAPLE—A very good ornamental tree. Popular because of its reddish purple leaves in the spring. Matures at 40 to 50 feet.

5 to 6 foot Whips—\$3.00 each; 5 for \$14.00.

CHINESE CHESTNUT—A blight resistant chestnut recommended both for hardiness and large nuts.

4 to 5 foot tall—\$2.50 each; 5 for \$12.00.

AMERICAN LINDEN—A favorite tree. Rapid growing tree, large glossy leaves, fragrant yellow flowers in June.

5 to 6 foot tall—\$2.50 each; 5 for \$12.00.

LOMBARDY POPLAR—A tall, slender, graceful poplar that is fast growing and free from disease. This tree is quick growing and will improve the appearance of your home right from the time it is planted.

5 to 6 foot tall—80c each; 5 for \$3.75; 10 for \$6.00.

WHITE BIRCH CLUMPS (European)—Same as regular White Birch except grown in clumps of 2 or more stems from a main stem at ground level. Produces very beautiful effect and very desirable for screen planting.

5 to 6 foot tall—\$3.00 each; 5 for \$14.00.

MAPLE, SILVER-LEAVED or SOFT (A. Dasycarpum)—A rapid growing tree of large size, irregular rounded form; foliage bright green above and silver beneath; a favorite street and park tree.

5 to 6 foot tall—\$1.75 each; 5 for \$8.25.

ORIENTAL PLANE or EUROPEAN SYCAMORE (P. Orientalis)—A rapid growing, erect tree with bright green foliage; much more esteemed than the American variety as a shade tree, very desirable for parks, streets and lawns.

5 to 6 foot tall—\$2.25 each; 5 for \$12.00.

PURPLE LEAF FLOWERING PLUM—A beautiful semi-dwarf tree, purple leaf retains its rich purple foliage all summer. Bark is reddish brown and small red plums appear in late summer. A very showy and impressive tree.

3 to 4 foot tall—\$2.25 each; 5 for \$10.75.

HOPA FLOWERING CRAB—When in full bloom is a solid mass of bright pink flowers. Clusters of small bright red fruit in autumn. Very hardy.

5 to 6 foot tall—\$2.50 each; 5 for \$12.00.

SPECIALTY PAGE

On this page we are listing last minute items—varieties of outstanding merit in their class. We recommend all items on this page as very worthwhile and all have been thoroughly tested and accepted for our trade territory.

MR. BIG GIANT STRAWBERRY

If you want to raise the biggest berries in the neighborhood look no further. This June bearing variety is a monster, and good eating too. Ripens in June, lots of berries 2 inches in diameter. Healthy foliage and good producer. Supply limited for this season so order early. **25 plants for \$1.00; 100 plants for \$3.50.**

FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves.

Pussy Willow Prices, 2 to 3 foot—\$1.25 each; 3 for \$3.00

Burning Brush Shrub—Alatus Compactus

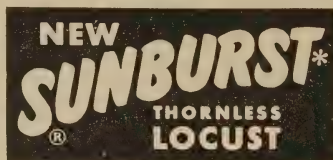

Outstanding shrub. Known as Japanese spindle tree. Pretty yellow flowers in May and June, interesting cork-like bark, leaves turning to brilliant crimson in fall, almost as if the shrub was afire. **Price 18 to 24 inch, \$1.50 each; 2 for \$2.75.**

Red Leaf Barberry Hedge

BARBERRY ATROPURPUREA—Imagine a beautiful well-shaped hedge with purple scarlet leaves all summer followed by red berries that hang on all winter. A beautiful hedge that everyone can enjoy. **12 to 18 inch plants, 10 for \$3.00; 25 for \$6.50; 100 for \$24.00.**

Red Bud

CERCIS CANADENSIS—Very attractive dwarf tree with branches completely covered with rosy purple flowers before foliage appears in spring. Matures at 20 to 30 feet. **Price 3 to 4 foot, \$1.50 each; 5 for \$6.00.**

The first new color in a hardy ornamental shade tree in decades, bright golden foliage on 8 to 10 inches of branch tips. Contrasting with the rich green of the balance of the tree; appears to be in bloom all summer. Broadly pyramidal head and excellent branching habit. Sunburst is absolutely seedless and causes no ground litter. It is adaptable to any location and transplants easily. Unusually strong, it has withstood ice and snow storms which completely ruined neighboring trees of other varieties.

5 to 6 Foot High Whips—Price each \$4.75; 3 for \$13.00

ANOTHER PAGE OF TOP NOTCH ITEMS

THE BIG THREE IN ELMS

CHRISTINE BUISMAN ELM

The Coming Shade Tree

Resistant to Elm Diseases

This is the elm that was developed in Holland a number of years ago by Dr. Christine Buisman. Repeated tests over many years by the United States Department of Agriculture show that it is highly resistant to both phloem necrosis and Dutch elm disease.

Buisman Elm is a selection of the European Smoothleaf Elm. It has a straight trunk, with slender, but strong, ascending branches that form a pyramidal head, or sometimes spreading and forming a round-topped head. The handsome foliage is dense and dark green.

Buisman Elm is highly satisfactory both for lawn and street planting

Price—Buisman Elm, 4 to 5 foot, \$3.50 each; 3 for \$10.00; 10 for \$29.00

HARDY HYBRID CHINESE ELM

- ★ It's Hardy.
- ★ It's Fast Growing.
- ★ It's Attractive.
- ★ It's Disease Resistant.
- ★ It's Not Brittle.
- ★ It's Wind Resistant.

It's the best fast growing shade tree we know of. A vast improvement over common Chinese Elm.

5 to 6 Foot—\$2.75 each; 3 for \$8.00; 10 for \$24.00

AUGUSTINE ASCENDING ELM

A new variety receiving wide publicity for its pyramidal habit of growth. Excellent for parkway and lawn plantings. Propagated under license from the Augustine Ascending Elm Research Association, Inc.

5 to 6 Foot Branched—\$3.75 each; 3 for \$10.50

MOUNTAIN ASH

Outstanding small tree. Matures 18 to 25 feet. Has orange colored berries. A shapely tree for small lawns or parking.

5 to 6 Foot, \$3.50 each; 3 for \$10.00

BOLLEANA POPULAR

The Silver Poplar—A rapid growing columnar tree with silvery foliage. Improved Lombardy.

\$1.25 each; 10 for \$10.00

Hybrid Elm

FLOWERING PEACH

Prunus Perseca—Red flowering peach—the old favorite in flowering peach. Produces abundance of double red flowers.

3 to 4 foot, \$1.50 each; 3 for \$4.00.

COME AND VISIT US

If you live within driving distance of Farmington why not drive over and pick up your order. We operate a large garden center where you may buy Evergreens, certified farm seeds, insecticides, flower and vegetable plants, in addition to our catalog listing.

OPEN 7 DAYS A WEEK DURING SPRING SEASON

Beautiful Peonies

"THE FLOWER ETERNAL"

EUDOLIS SUPERBA—Dark pink. Large, loose flat crown when fully open. Very fragrant. Long stems. Blooms early.

KARL ROSENFELD—In our opinion this is the best Red Peony we have. Deep dark crimson. Large double flowers. Perfectly healthy.

FRANCE ORTEGAT—Semi-rose type, large deep crimson with brilliant golden yellow anthers; fragrant, midseason.

FELIX CROUSE—Enormous blooms of rich, velvety red so double they show no stamens. Fine all-purpose Peony. Blooms late.

MADAM DE VERNEVILLE—An early variety. Very healthy. Large white flowers with crimson marks.

FESTIVA MAXIMA—One of the all time favorites. Huge blooms of creamy white flecked with pink and a touch of rose pink on some petals. You will never regret planting Festiva Maxima.

Peony Prices— Strong 3 to 5 Eye Roots—75c Each; 6 for 4.20; 10 for \$7.80

TWO TOP NOTCH CANNA VARIETIES

YELLOW HUMBERT—Large, showy blooms of golden yellow heavily flecked with red. The flower clusters are superb, contrasted with rich green leaves.

MADAM CRAZY—Dwarf green foliage variety. Large heads, rose pink. Excellent bedder.

Price—Same as Cannas on Page 15.

ELEPHANT EAR CALADIUM

Magnificent foliage plant. Makes a beautiful display of color in the garden from spring until frost. Interesting markings and color variations. Very effective for table decorations. Easy to grow; does well in shade.

35c each, 3 for \$1.00.

ORNAMENTAL LILIES

Enhance the beauty of your garden with lilies.

Prices—Large Blooming Size Bulbs, 35c Each; 5 for \$1.50.

ELEGANS ATROPURPUREUM. Deep red shaded crimson, large flowers. Splendid for bedding. Height 12 to 15 inches. Blooms in June. Plant 4 to 5 inches deep.

ESTATE. Large, fragrant pure white flowers. Blooms mid-summer. Medium height.

HENRYII. (The Golden Speciosum). Flowers Golden Yellow, 5 to 6 inches tall. Blooms in August and September. Plant 8 to 10 inches deep.

REGALE. Our Regale Lilies are an improved type grown by seed selection, extra large white flowers suffused pink with creamy yellow throat. Very fragrant blooms in July. Planting depth 5 inches.

TIGRINUM SPLENDENS FLORIBUNDA. (Double Tiger Lily). This is about the only Double Lily in existence. One of the easiest to grow. Most free blooming of any Lily in existence. Is very hardy. Should be in every garden. Height 3 to 5 feet.

TENUIFOLIUM. (Coral Lily). Bright Cherry Red blossoms. Some times called the gayest of red Lilies. Height 12 to 24 inches. Blooms in June. Plant 4 to 5 inches deep.

Always place order as early as possible giving shipping date that order is wanted. Otherwise we will ship when we think it is planting time in your locality.

As we are maintaining last season's low prices on most items we are not able to absorb the entire cost of prepaying your orders. Under the new rates you may send remittance as per table on order blank and we will prepay your order and pay any additional charges. Orders not accompanied by transportation allowance will be sent C.O.D. for postage or sent via collect express.

Remittance may be sent in the form of money orders, checks or bank drafts. We do not advise sending currency through the mail unless it is registered.

Orders can be sent C.O.D. if you wish, providing a 25% down payment is sent with order. On C.O.D. orders you will have the additional expense of the Money Order and C.O.D. fee to pay.

Strawberries will in most cases be sent in packages separate from balance of order, so please allow 10 days before writing in if only part of your order arrives.

Our shipping season begins February 15 and continues until June 1. Fall season starts September 25, continues until December 1.
